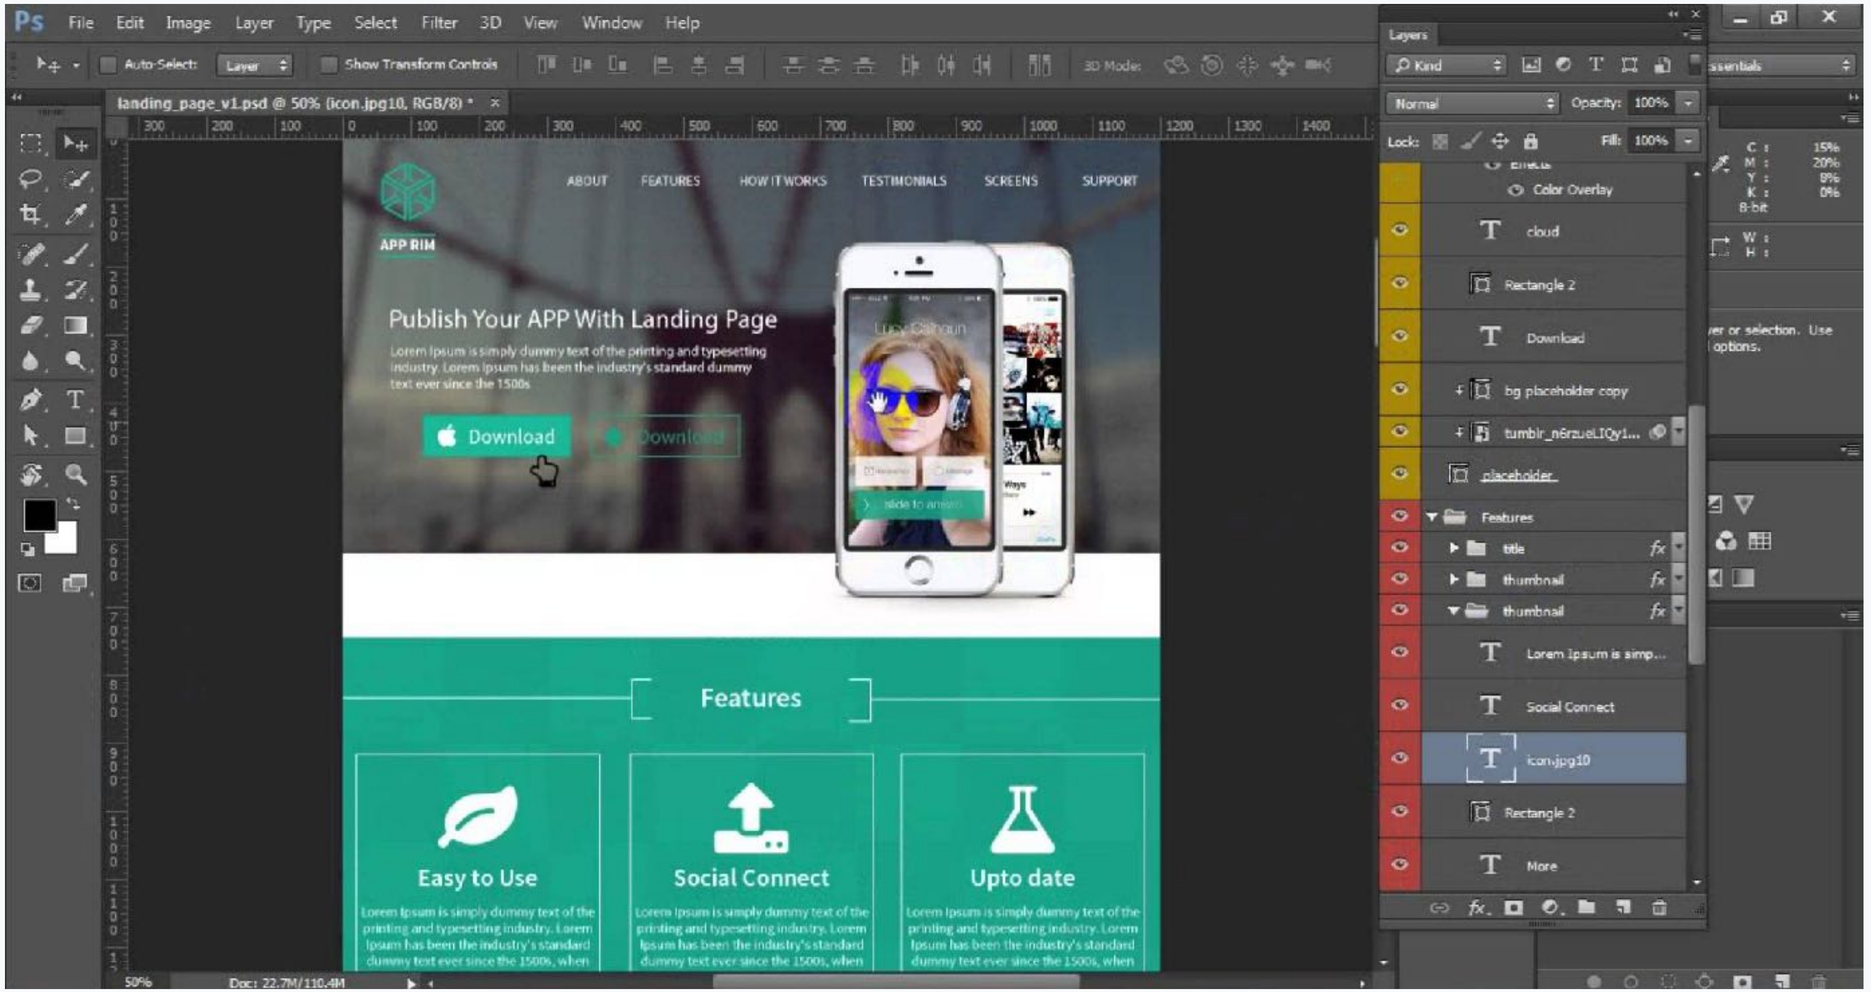
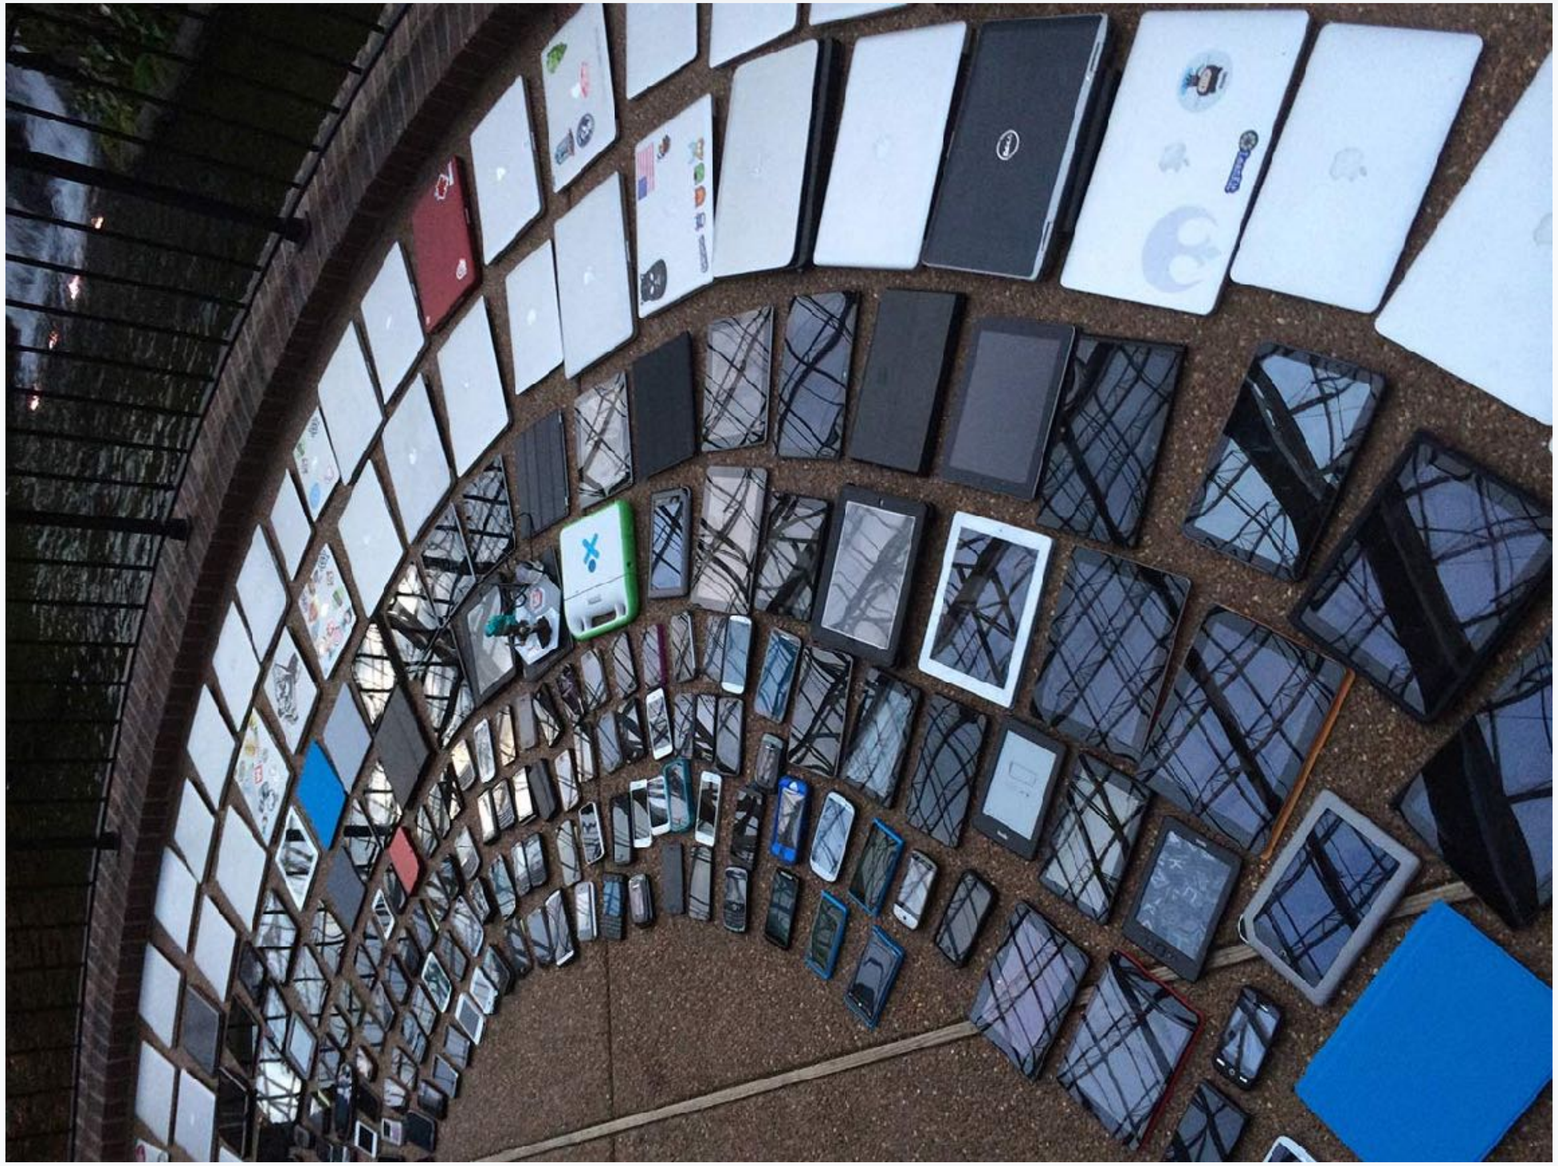
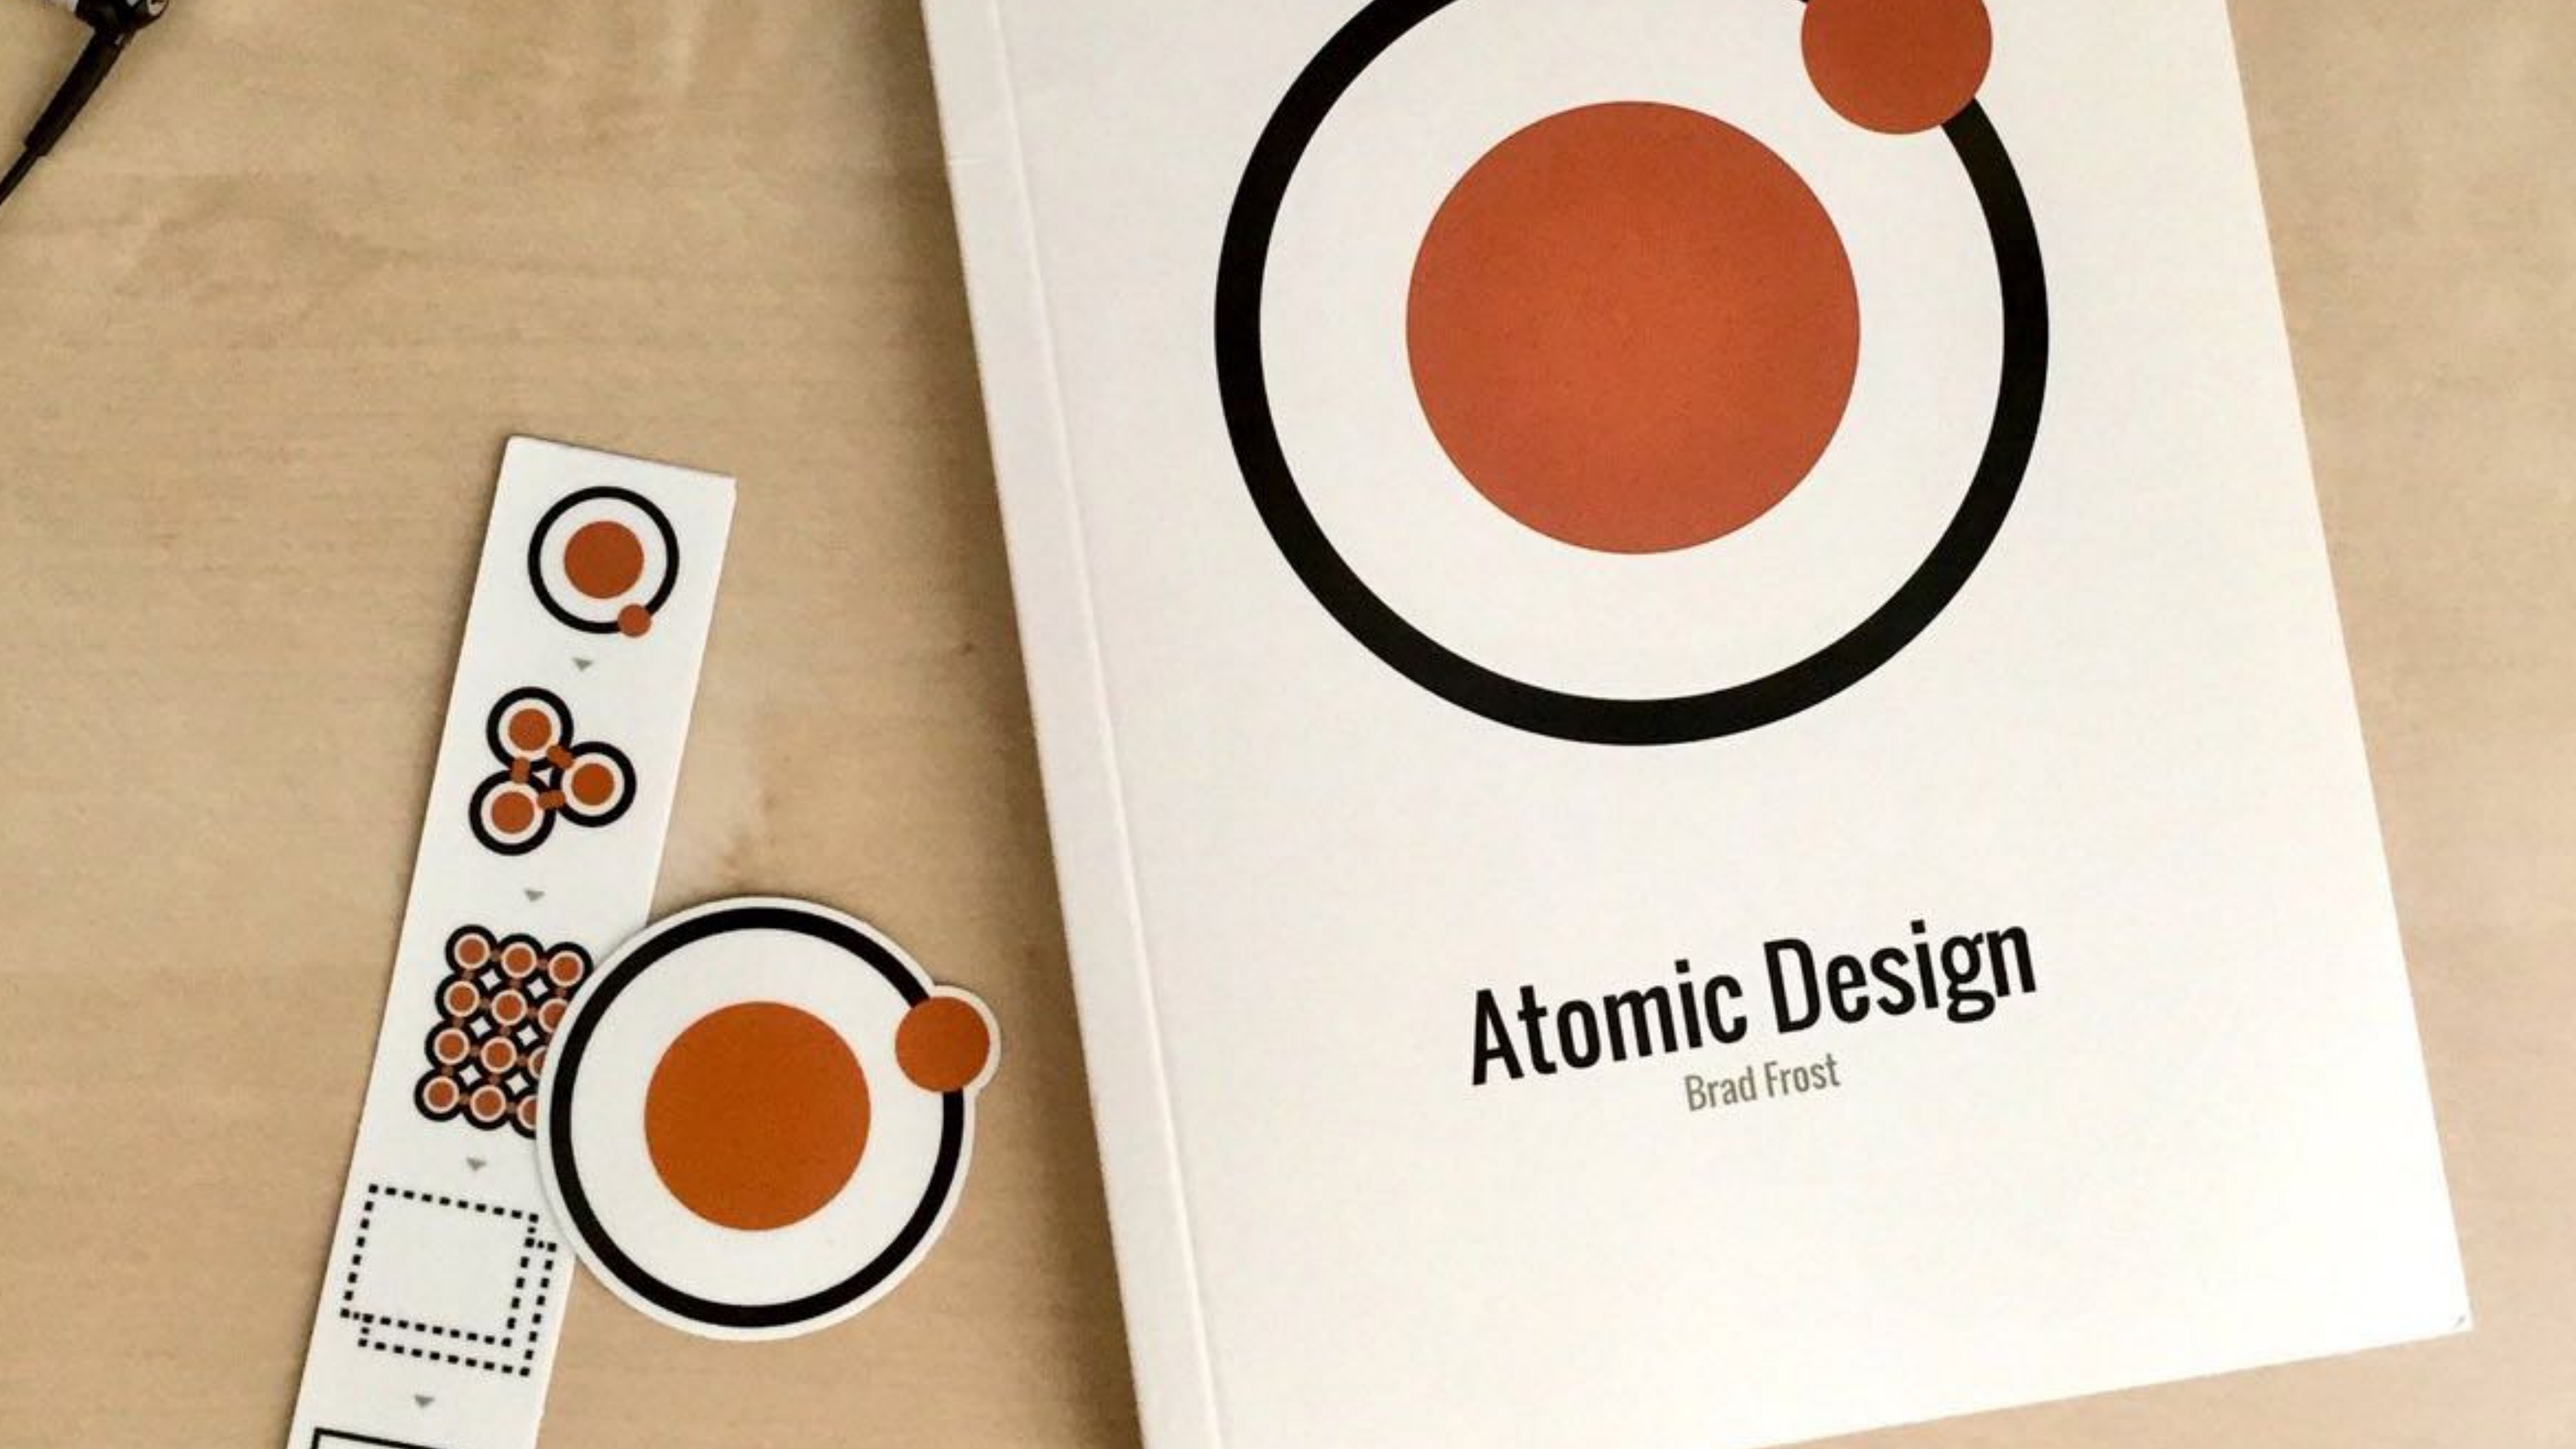
Design whut?

Welcome to the future



‘These are just some of the connected devices we need to worry about.’





Atomic Design
Brad Frost

✏️Tussenopdracht

A

Zoek in je groepje online naar een aantal Design Systems, kies de beste en presenteer deze aan de rest van de klas.

Carbon Design Kit
The Carbon Design Kit is a living, breathing document that contains all of our visual assets (components, iconography, color palettes, grids, templates, responsive behavior, etc). This document evolves and changes as we collaborate with partners and service teams. All of the assets that live in the Design Kit can also be found on our Carbon Design System website.
Change Log
Contains release notes on current and previous versions of the Carbon Design Kit.
